Erratum

Erratum to: "Applying the exponential Chebyshev inequality to the nondeterministic computation of form factors" Journal of Quantitative Spectroscopy and Radiative Transfer 69 (2001) 447–467 ☆

G.V.G. Baranoski, J.G. Rokne *, G. Xu

Department of Computer Science, University of Calgary, 2500 University Drive NW, Calgary, Alberta, Canada T2N 1N4

At some point in the publication process of our article the list of references got randomized. This makes it very difficult to associate the ideas in the paper with the correct reference. We have, therefore, provided the correct reference list below.
